Hi Rebecca,

We are aiming to provide you our technical review comments on site characterization this week.

Best regards,  
Calvin

Thanks, all. Looking forward to talking this week.

Just as a quick follow up, I have not received any technical feedback yet on our application.

Calvin and David, is this you understanding as well? Just double checking as I know we were having some email issues last week and wanted to be sure I didn't miss something.

Thanks again and happy Monday,  
-Rebecca

Dear Calvin,

Hope you are doing well. As a follow up to my voice mail message earlier this morning, I was hoping that we can set up a time early next week to discuss the status of the CES Class VI Permitting Application.

I understand that we currently are waiting to receive the Technical Review Letter; however, I would like to take the opportunity to discuss what actions can be implemented at this stage (and throughout the remainder of the permitting process) to avoid delays that will negatively impact this project.

If you can provide your availability, I can send out an invite for a 30 minute conference call.

Please let me know if you have any questions.

Best regards,  
Natalie
